### **Letter of confirmation – Internship**

To Whom it May Concern,

This is to confirm that Jonathan Mogovan, born June 28<sup>th</sup>, 2004, has successfully completed an internship at Bitmovin from July 1<sup>st</sup> to August 30<sup>th</sup>, 2024.

Bitmovin is a B2B SaaS company specialized in API-based, Emmy-winning video streaming technology, and our global customers range from the BBC, The New York Times, FuboTV to ClassPass and many more.

Jonathan joined our Player team for the internship and made a significant contribution to our product by developing an innovative accessibility feature — a visual sign language overlay for the Bitmovin Player that enriches the user experience for hearing-impaired users.

Jonathan effectively navigated available research material on the topic and was able to build a proof of concept in an impressively short time. He then seamlessly integrated this feature into our product, showcasing his attention to detail and structured approach to work. His presentations and demos were consistently impressive, reflecting his strong communication skills and dedication to excellence.

Everyone at Bitmovin wishes Jonathan all the best in his future endeavors.

Sincerely,

A handwritten signature in blue ink, appearing to read "Stefan Lederer", written over a horizontal line.

Stefan Lederer  
CEO, Bitmovin
